

About Families Empowered

Families Empowered is Texas' only nonprofit organization dedicated to helping families choose the schools their children will attend.

OUR MISSION is to empower families to engage in a marketplace of schools - that is, to understand their school options and choose the right school for their child.

OUR VISION is that one day all families will have the ability to choose a high quality school, so that all students achieve their full potential.

We believe that every child should have access to an excellent education, regardless of income.

We do not advocate for any one schooling option over the other.

We want families to know that when it comes to selecting a school, you have a voice in the choice.
